Free participation. Sign up at akc.ku.dk

August Krogh was awarded the Nobel Prize in Physiology and Medicine in 1920. To celebrate the legacy of his work, The August Krogh Club at the University of Copenhagen has invited four distinguished speakers to present the progress that has been made within physiology and metabolism in the 100 years since the Nobel Prize.

August Krogh on Tour is organized as a collaboration between the University of Southern Denmark, Aarhus University and the University of Copenhagen.
