

# Danish Diabetes Academy

**Program for Training Day**  
4<sup>th</sup> BBDC-Joslin-UCPH conference

**October 19, 2017**

The University Club of Toronto  
380 University Avenue  
Toronto, ON

# Program

## Thursday– October 19<sup>th</sup>

07:45–08:30 Continental breakfast & registration

08:30–08:40 Welcome & Introduction by Managing Director **Tore Christiansen**, Danish Diabetes Academy

---

**Session 1**      **Diabetes Challenge**  
Chair: **George King**, Joslin, **Daren Yuen**, BBDC & **Michael Larsen**, UCPH

08:40–09:10 Check-in with the professors: feedback on challenge solution proposals

09:10–11:10 Team work: final preparation for the presentation

11:10–11:25 Short break

11:25–13:30 7 x 10-minute team solution presentations including time for feedback

13:30–14:30 Lunch

**Session 2**      **10 minute presentations by selected young researchers**  
Chair: **Evan Lewis**, **Lilia Magomedova**, **Daniel Gordin** & **Piotr Dworsinsky**

14:30–14:45 ***Insulin signalling and insulin uptake into microvascular and lymphatic endothelial cells***  
Dr. **Javier Jaldin-Fincati**, Banting & Best Diabetes Centre, Canada

14:45–15:00 ***Evaluation of intranasal insulin effects on the regulation of lipoprotein production in healthy men***  
Dr. **Priska Stahel**, Banting & Best Diabetes Centre, Canada

15:00–15:15 ***Insulin, not IGF1, accelerated intima hyperplasia in diabetes by induction of hyaluronan synthase 2***  
PhD **Qian Li**, Joslin Diabetes Center, USA

15:15–15:30 ***Meta genome-wide association study of cardiovascular disease in people with type 1 diabetes***  
Dr. **Sareh Keshavarzi**, Banting & Best Diabetes Centre, Canada

15:30–15:45	<b><i>Risk and Protective Metabolomic Signatures Associated with Albuminuria in T1D with CKD 1-2: A Joslin Kidney Study</i></b> MD <b>John Tsay</b> , Joslin Diabetes Center, USA
15:45–16:15	Coffee break
16:15–16:30	<b><i>Performance of Genetic Risk Scores from the General Population in Predicting Major Coronary Events in Type 2 Diabetes</i></b> MD <b>Mario Luca Morieri</b> , Joslin Diabetes Center, USA
16:30–16:45	<b><i>Cardiovascular mortality risk and RNA modification by oxidation in patients with type 2 diabetes</i></b> MD <b>Laura Kofoed Kjaer</b> , University of Copenhagen, Denmark
16:45–17:00	<b><i>Diabetic retinopathy after roux-en-y gastric bypass</i></b> MD <b>Lene Ring Madsen</b> , Aarhus University, Denmark
17:00–17:15	<b><i>IL-6 and gastric emptying</i></b> MD <b>Louise Lang Lehrskov</b> , University of Copenhagen, Denmark
17:15– 17:25	Short break
<b>Session 3</b>	<b>Three perspectives on future research within the field of diabetic complications</b> Chair: Professor <b>Jens Høiriis Nielsen</b>
17:25–17:40	<b><i>Cardiovascular complications</i></b> Professor <b>George King</b> , Joslin Diabetes Center
17:45–18:00	<b><i>Kidney complications</i></b> Professor <b>Darren Yuen</b> , BBDC
18:05–18:20	<b><i>Eye complications</i></b> Professor <b>Michael Larsen</b> , University of Copenhagen
18:20–18:30	Sum up and discussion
19:30–	Social Dinner

**Danish Diabetes Academy**
